

LIBERTY & HEALTH ALLIANCE

LIBERTYANDHEALTH.ORG

To whom it may concern,

We hope and pray this letter finds you in health and peace. My name is Dr. Lela Lewis, President of Liberty and Health Alliance. It is my pleasure to share some exciting details about the upcoming Liberty and Health Alliance free mega-clinic coming to the Tampa Convention Center in September! We want to invite you to be a part of this ground-breaking event.

For over two years our world and country have been turned upside down. So many have suffered loss of health, money, support, and even life. At Liberty and Health Alliance (LHA), we believe it is time to turn our world right side up. We believe that God's original plan was that all humanity has the right to liberty and health, and it is our blessing to help support this for all. The Upside Down to Right Side Up mega-medical clinic and weekend celebration will seek to fulfill just this. It will take place at the Tampa Convention Center, September 15-18.

Hundreds of volunteers are expected to provide 3,000 patients with FREE wholistic healthcare including medical, dental, and vision care, along with many other services such as legal and financial planning. Volunteers are composed of medical and nonmedical volunteers, with the majority being nonmedical. Services are expected to amount to over \$15 million in free healthcare.

For the last nine years, I have had the privilege of overseeing numerous other similar events in cities such as San Francisco, Los Angeles, Phoenix, and San Antonio, during which time we were able to provide more than \$148 million in free healthcare to a total of more than 48,000 patients.

Endeavors such as these take many partners. Therefore, in order to meet the needs of the community, Liberty and Health Alliance is requesting your's and your company's support. Currently, there are a number of partners within the public and private sectors coming together to serve the community.

There are several ways businesses can partner. Some of these include financial sponsorship, in-kind donations, and assistance with volunteer recruitment, among many others. Together, we can bring healing to those in critical need within the Tampa Bay Area.

To learn more how you and your business can serve those in need, please visit LibertyandHealth.org and click [HERE](#) to watch a short promotional video or [HERE](#) and [HERE](#) to view the flier.

As a Christian organization, Liberty and Health Alliance believes our actions should not be a list of do's and don'ts, but rather a demonstration of God's deep, unending love for humanity. Hence, we will be providing a healing approach that addresses the whole person—physically, mentally, financially, emotionally and spiritually. This involves providing a free, plant-based and healthy meal to all patients and volunteers, music therapy, medical massage, lifestyle counseling, in addition to full-service dental care including cleanings, fillings and extractions, full vision care with examinations and glasses, complete physicals, surgical procedures, laboratory services, and pharmaceuticals.

By following this method, thousands of people's lives have been positively affected. One story in particular demonstrates the beauty of this pattern. The event took place in San Francisco with a gentleman we will refer to as John. John had just moved to San Francisco with his two toddlers. He was a single dad and unable to get a job. He had fallen and knocked out his two front teeth and had been told that he wasn't going to be able to get a job until he had teeth. As John was walking down the street pushing his stroller and crying out to God, he prayed, "Lord hear me. Help me provide for my little ones. Please, Lord, help me get my teeth fixed." Just then, the wind blew a piece of paper into the spokes of his stroller wheels, and he reached down and picked it up. It was an advertisement announcing our free dental, medical, and vision care at the Armory the next day. He and his 3-year-old and 10-month-old went straight there and camped out all night, walking in the next morning as the first patients. Our head dentist was able to fix John's front two teeth. John went straight from there to a job placement location and was offered a job. He then came back to the dental team at the Amory to say thank you.

This would not have been possible without generous volunteers or without the businesses that partnered together, including medical suppliers, dental companies donating and loaning dental equipment and supplies, vision partners, and so many others.

Today there are many others like John within the Tampa Bay Area who are also in need, and we need your business partnership to make this a reality. As a 501c3 non-profit, we will be happy and honored to provide a tax-deductible receipt to all partners. In addition, all partners are listed in all partnership marketing material, including banners, media interviews, and promotional material at the event. Also, on Saturday at 4:30 p.m., each of our partners is invited to the Gratitude Session, where they will be publicly recognized and thanked for their willingness to partner in this great endeavor. The media is invited, and the event is expected to be heavily attended.

Again, I want to ask you to please consider joining us as we seek to meet the needs of those hurting.

Please share this promotional video and the link for the PDF flyer on your social media platforms and forward to friends. Liberty and Health Alliance is also in great need of resources and funding to serve food, provide clothing, and deliver medical, vision, and dental care.

To receive a tax-deductible donation receipt for either in-kind donations, usage of medical and dental equipment, and/or financial contributions, please write to info@libertyandHealth.org and please click [HERE](#) to donate.

I look forward to further discussing this exciting opportunity with you.

Sincerely,

Lela Lewis, MD, MPH, FACOG
President
Liberty and Health Alliance
